

## **LOOKING TO THE FUTURE**

### **CAN YOU HELP?**

**Contact Geoff Lambert 01473 624130**

**E-mail [ircmc@tesco.net](mailto:ircmc@tesco.net)**

**Ipswich Radio Control Model Club** is a long established properly constituted unincorporated Association which is seeking a field to rent from which we can fly models in the medium term.

### **WHAT DO WE NEED?**

Between 4 and 12 acres  
within 20 miles of Ipswich

A site with very few trees

A site with satisfactory access  
And where car parking can be accommodated.

A site at least 500 metres from  
noise sensitive premises.

A site without power lines or mobile phone masts.

A site which has reasonably level  
ground within its centre.

### **HOW RESPONSIBLE ARE WE?**

Our club has an excellent safety record.  
Our members care about our neighbours,  
all aircraft, other than silent flight models,  
are noise tested and comply with The  
DofE Noise code.

Our current flying site is well maintained  
and litter free.

EVERY MEMBER must have Insurance  
to £10M through our national body the  
British Model Flying Association.

Our members are trained by Club Instructors  
to achieve the 'A' Certificate of competence.  
Until this standard has been reached  
no novice pilot may fly unsupervised.

We have a Child Protection policy in place  
and Club instructors permitted to work  
with junior members are CRB Checked.

### **WHAT ABOUT THE CASH?**

The Club presently has strong cash assets which can fund an initial site set-up  
and any future rental would be raised by annual subscription from the members.
